Blue Whale Project

Style of the interface elements:

Buttons will be with round corners, in #0232a1 color and #edf2fb for the text in them.

The whole page will have #edf2fb as the background colourot the body, instead of white.

The widgets for the news front page, will have a thick border in the #abc4ff colour to contrast and differenciate from the header and footer.

The 3d model will have a gradient shadowbox to give it the user's attention.

Login and chage of password forms, will have the #d7e3fc background colour and white input boxes. It's labels will be in #edf2fb colour.
